

AFS-800

Distribution: A-X(FS)-8, A-FFS-0 (ALL), A-2(FS)-7,  
AMA-200 (10 cys), A-WXYZ-1

**APPENDIX A-2**

**OF THE GENERAL AVIATION ACTION PLAN**

1995 ACTION ITEMS  
TO BE ACCOMPLISHED IN PARTNERSHIP  
BETWEEN THE FAA AND THE  
GENERAL AVIATION ACTION PLAN COALITION

**Obj. from Section III  
of March '94 GAAP**

**1995  
Partnership Action**

**Planned  
Date**

**Lead  
Org.**

1 F. Improve regulations and standards for operation and maintenance of general aviation aircraft with increased safety and simplified operation, by integrating human performance considerations into these standards systematically.

Publish NPRM Part 61, Phase 2

3/95

AFS, ARM  
AGC

2A. Reengineer airman, operator, and aircraft certification processes, as required, to provide timely services to general aviation customers and minimize customer costs.

Conduct a meeting with industry to discuss the redrafting of industry proposed AC 21.xx, Major and Minor Alterations and Repairs. In addition, a partnership action with NAAA, and UAA will be started to reengineer the certification process for certain air agencies.

4/95

AIR, AFS  
GAMA, SAMA

2C. Establish a mechanism to increase dialogue between local FAA service providers and the general aviation customer to enhance service delivery.

Share the on-going results of the Flight Standards Customer Survey with the general aviation industry.

8/95

AFS

3A. Continue to develop aircraft certification standards and processes to facilitate introduction of a new generation of general aviation aircraft and technology in a worldwide marketplace.

Complete the resolution of comments on the four FAR 23 Harmonization NPRMs.

7/95

AIR  
GAMA

3C. Ensure the orderly development and availability of alternative general aviation fuels, with due consideration for the existing general aviation fleet and a new generation of general aviation aircraft, as well as applicable emission standards.

Continue to sponsor alternative fuels research in FY-95.

on-going

AIR, ARD  
AOPA, GAMA  
EAA
